- Apply **DOPO POSA** diluted to 10%, work it for a few minutes
Remove the whole with vacuum cleaner
- Rinse with clean water.
Remove the whole with vacuum cleaner

APPLICATION

SOLUTION FOR INDOOR

The treatment of indoor gres floors is necessary in order to carry out daily maintenance easily.

PORCELAIN GRES

- Apply **GRES PROTECTOR** in two hands approx 15 minutes from each other

APPLICATION

NB. The treatment can be repeated over time, applying a further hand of **GRES PROTECTOR**

SOLUTION FOR OUTDOOR

The treatment of outdoor gres floors is necessary in order to maintain the physical and chromatic characteristics of the material unaltered.

PORCELAIN GRES

- Apply **GRES PROTECTOR** in two hands approx 15 minutes from each other

APPLICATION

NB. The treatment can be repeated over time, applying a further hand of **GRES PROTECTOR**

MAINTENANCE

Correct maintenance of gres floors, especially for indoor surfaces, allows the beauty of the surfaces to remain unaltered.

The CIR solution foresees the use of neutral pH maintenance cleaners, which allow frequent use, so as to maintain the natural shine of the flooring.

DAILY MAINTENANCE: **PAV LUX**
